## MASTER CURRICULUM DESCRIPTION with special reference to goals and outcomes

<b>Number of enrolled students</b>	19
<b>Master curriculum description:</b>	
<p>The purpose of the study program Management of emergency situations is to educate master environmental engineers to work in accordance with the needs of society and for further academic development in line with modern safety requirements and emergency management in the future. The study program is designed to provide competencies and develop academic skills in the field of emergency management. New master course is organized at University of Sarajevo, Center for Interdisciplinary studies as one-year program with 60 ECTS credits.</p> <p>Scientific disciplines and professional subjects at this level of study enable students to master specific theoretical knowledge and applied skills in emergency management, the development of critical thinking, teamwork skills and co-operation, while the variety of elective subjects stimulates both independence and creativity in creating study, as well as innovative and multidisciplinary approaches to managing the security system in emergency situations. Master study program provides opportunities for acquiring basic competences of scientific research work and development of professional and methodological culture for continuing education at doctoral studies.</p> <p>The main goal of the study program is to educate students for the application of scientific and professional achievements in solving the problems of security of people, natural and material goods and for development of emergency management system.</p>
